From the Director

mid-march marked my third month on the job. There are certainly many sizeable challenges before us but, far more than not, I am having a great time.

By necessity my focus is all over the place: The building, programming, operations, human resources, finances, fundraising, community relations, many meetings of every kind, frequent board interactions, and an endless number of details to digest and act upon. But, more important than what I am doing is how “we are” doing. To that I say: there are some exciting plans coming together relating to next season and the needs of the building and business, including, quite possibly, a capital fundraising campaign. The capital campaign is not definite; we’re still performing due-diligence, but our 25th anniversary season is an ideal time to launch a major fundraising drive to polish up and further enhance the “Jewel of the Lakeshore.”

Yes, for those who are unaware, this Fall is the Capitol’s 25th season. This is reason to celebrate the work done 25 years ago by so many in this community and the work that continues today with this fine staff and team of volunteers (including our very impressive Board). The Capitol has changed in many ways since 1987... we are now looking ahead to the next quarter century of performing arts, entertainment, culture, arts outreach and education, historic preservation, economic stimulation, and helping to anchor downtown Manitowoc’s redevelopment efforts. What role can we play in this community’s future? What role can we play in the Lakeshore region’s identity?

May everything we do advance our mission and contribute to the larger picture of a healthy, more prosperous community. Happy Spring! Regards – *Matt*
